Tabby,

I'm so sorry this happened. I recall seeing a draft email that was the response to you, but I'm not sure where things fell through the cracks. We will follow-up for sure. The intent was to get back to all the interagency reviewers. This is not the good start we intended to have.

Lets chat. I have a 4pm meeting but will call you afterwards.

Nancy

Importance: High

Hi Nancy-

First of all I apologize that I am reaching out to you so late on this issue and I know that you are in the middle of finalizing the TSCA implementation rules but I wanted to let you know that I got a call from Andrea Cherepy letting me know that EPA will be signing off and publishing the scoping documents in the FR today.

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

This morning Andrea Cherepy assured me that she will get back to me on this but also told me that it was too late to change anything. I wanted to know if you can give me any more insight on this. It seems to me that the interagency collaboration that was intended to be part of this process has failed not only because of this misstep in communication abut also because we were provided just a few days to review all 10 scoping documents.

I'd love to discuss this with you if you have some time today.

Thanks!

Tabby

Hi Angela-

I wanted to follow up on my comments on the scoping documents sent to you last Thursday.

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

Please let me know if and when you can discuss.

Thanks very much.

Best,

Tabby

Subject: RE: [Non-DoD Source] FYI: Scopes for Risk Evaluation of First 10 Chemicals under TSCA

Hi Angela-

My apologies for the very late email. But I wanted to send Advocacy's concerns with the scope documents regarding TCE, Methylene Chloride and NMP. As you are probably aware, we wrote three comment letters to express small business concerns with the risk evaluations that were used to propose TSCA 6(a) rules to regulate TCE use in aerosol degreasing, spot cleaning and vapor degreasing and methylene chloride and NMP use in paint removers.

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

have attached our comment letters that identify our specific concerns with each use. I would be happy to discuss this further tomorrow at your convenience.

Best,

Tabby

TSCA Interagency Policy Group,

To follow up on my previous message, we recognize that this is a very short timeline and appreciate input you're able to provide given the statutory deadlines for publication. Based on feedback from a number of folks, OCSPP has now decided to accept comments until Thursday COB (6/15), and would just ask those agencies intending to submit comments to be available for discussion on or before Friday 6/16 if needed. Again, comments should be directed to Angela Hofmann, director of OCSPP's Regulatory Coordination Staff.

Ex. 5 - Deliberative Process

In terms of immediate next steps, OCSPP will work swiftly to incorporate edits and/or

resolve issues identified by this group. OCSPP expects to publish the first 10 scope documents and a Federal Register Notice next week. OCSPP will also re-open the existing dockets for the first 10 chemicals to allow for the submission of additional data or information that could be useful to the Agency in conducting problem formulation, the next step in the process of conducting the risk evaluations for these chemicals.

Thanks in advance,

Ryan

Ryan,

Thank you for your message. Unfortunately the proposed timeline will not afford DoD with enough time to provide a meaningful review. We are refraining from commenting and will seek to engage at a later date to provide feedback on the scoping for each of the 10 chemicals.

Please provide us with additional information regarding the review process that EPA plans to follow. For example, will these documents be published in the federal register?

Thank you,
Tricia

TSCA Interagency Policy Group,

FYI, OCSPP is pleased to provide the latest working drafts of the risk evaluation scope

documents for the first 10 chemicals under TSCA. OMB will also be sharing these documents with the staff Interagency reviewers who have been engaged on the TSCA Framework rules. Any comments can be directed to Angela Hofmann (hofmann.angela@epa.gov < Caution-<mailto:hofmann.angela@epa.gov> > no later than COB this Wednesday (6/14)

Thanks,

Ryan
